Meet the girls.

Like all girls, young and old, Mabel, Olive, Sophie, Lili, Lola and Josie each have their own unique personality, and they're not afraid to celebrate it. Lovingly crafted using fabrics that are boldly contemporary but timeless in their simplicity, these soft, huggable and washable dolls take playtime back-to-basics, and remind us all of the simple, happy joys of childhood. Whether she reflects a girl's style, or fuels her imagination, each doll embodies what a best friend should be — a companion, a confidante, a playmate.

About us.

Sophie + Lili began life as a boutique children's clothing line for girls, but has evolved to become a signature collection of dolls that capture the imagination, and the personality, of little girls at play. Designed with whimsy and warmth in the studio of artist Jennifer Vallez, each doll is a character all her own, fully manufactured in the USA, with 100% cotton outside and poly inside.

I love to read and make up words
and share my stories with the birds
after dark, when I'm in bed
I whisper poems from in my head

Mabel

I love to swing a baseball bat
dirt and mud? I don't mind that
my favorite snack in all the world?
jelly beans and ketchup, swirled!
